Take a look at these!

MIMS

Independently edited for concise, essential information on prescription & non-prescription products in the market. Used daily by thousands of healthcare providers for information on dosages, adverse reactions, drug interactions & many more. Presented in an easy-to-use format.

MIMS PHARMACY

MIMS Pharmacy is created especially for pharmacists and pharmacy technicians. It features common health topics with relevant patient advice and guide to treatment options.

While brand monographs in the Product Information Section includes information on the brand's contents, indications, dosage, precautions, contraindications, adverse reactions, packing/presentation and pregnancy safety category. MIMS Pharmacy also features easy-to-use Brand & Generic Name Index with page references on featured health topics and brands available in MIMS. MIMS PHARMACY is an indispensable tool for the pharmacist's daily counseling and dispensing needs. Designed to be a reliable reference for pharmacists and other healthcare providers, especially those practicing in the community setting, MIMS Pharmacy will ensure that essential counseling information is readily available at the point of care.

MIMS Specialty Editions

A handy reference tool for doctors and other medical professionals that contains Disease Management Charts which provide detailed discussion of the clinical presentation, diagnostic tools and treatment options of the most common diseases, ensuring that the storehouse of information is readily available right where these members of the healthcare team need it.
